

Crib Bedding Questionnaire

Do you plan to use a bumper?

If NO, we would like to make you aware of the many alternative options available to you. Here are a few: Wonder Bumpers, Halo Sleep Systems, Custom Bedding, and Cocalo or Cottontale- these brands offer options of no bumpers, alternative bumpers, and other safe sleep options as well. Please ask our sales staff about the different options available to you.

If YES – FYI-Certain crib bumpers will NOT WORK on all cribs. The Baby's Room suggests choosing your crib first, then our staff can assist you in finding the right type of bumper system for your crib.

Example 1- Munire Solid Back Cribs do not have slits for bumper ties on the middle of the headboard.

Solution: Glenna Jean or Custom Bumpers from Pine Creek allow you to tie onto the ends of the cribs rather than the middle. These brands also offer the rolled bumper style, so that it is heavy enough to stay in place and not flop down, like other brands tend to do.

Example 2- Baby's Dream Solid Back Cribs have slits in the middle of the headboard.

Solution: Glenna Jean, Little Yellow Chick, Ozark Mountain and Pine Creek all have ties that are made to accommodate this type of crib. The ties can be placed in the center rather than spread out like they are for slatted style cribs.

Example 3- Slat Cribs will accommodate MOST any bumper system including Cotton Tale, Cocalo, and the brands listed above. However, it is still important to let your salesperson know what you have in mind. We are trained to point out potential issues that you may not have considered and point you in the direction of the safest option.
